## South 35<sup>th</sup> Street Construction Update

January 27<sup>th</sup>, 2016

I wanted to share with you an update regarding upcoming road construction on South 35<sup>th</sup> street near your home or business. In my discussions with the Department of Transportation (DOT), I have been told the project should be wrapped up before next Thanksgiving. As you know, between W Mitchell and Greenfield, half of the road has been re-paved while the other half remains in disrepair. In the coming months, there will be plenty of noise and traffic as a result of this construction. However the end result will be new roads, increasing driver safety and reducing the impact major potholes have on car repairs. This is a much needed project which will enhance a main thoroughfare in our community, benefitting both residents and businesses. I am proud to have worked with DOT to ensure this moved forward. Below is a map with the construction area highlighted:

Best wishes,

Josh Zepnick
